Health Check-Up Packages

PREVENTION IS BETTER THAN CURE

Applies most aptly when it comes to one's health issues. This is why doctors advise on getting regular preventive health checkups, to help us keep track of our health. Preventive health checkup is a series of medical tests undertaken to understand measures needed for disease prevention.

IMPORTANT INSTRUCTIONS

- Visit our Health Check-Up Centre on an empty stomach. Only water can be taken. Overnight fasting is required for 8 to 10 hours.
- Avoid wearing tight, formal clothes and shoes.
- Avoid smoking and consuming alcohol for a minimum of 12 hours before the check-up.
- If already registered at the hospital, provide the registered mobile number or hospital registration number when fixing the appointment and when reporting to the hospital.
- Bring all your earlier medical reports and prescriptions if available.
- Bring all your earlier medical reports and prescriptions if available.
- Based on the medical condition, the consultant may recommend a few further tests or consultations. Any further tests or consultations recommended by the consultants will not be a part of this package and hence will be charged extra. The availability of reports in such instances will depend on the nature of the tests.
- Clients with existing co-morbid conditions should take their regular medicines, if any, after the fasting blood sample collection.
